Overview: Term-Specific Instructional Activity Files

Thank you very much for submitting these student-level data for your designated Early College partnership. These data allow the Department of Elementary and Secondary Education (DESE) and the Department of Higher Education (DHE) to collect and analyze accurate and comprehensive information in order to provide timely information for designated partnerships to continuously reflect and improve on their progress. Data will also be used by DHE and DESE to inform policy and programmatic decisions. These data are vital to link high school reported data to college-level data to evaluate individual programs and the statewide initiative as a whole.

This Data Dictionary provides a detailed description of the data elements that must be submitted for each term. As documented throughout the dictionary, many of these elements are validated against one another, so it is very important that each element be reported accurately. Please check the documentation for each element to ensure the accuracy of coding and reporting.

The submission of these files will occur on a schedule set by DHE/DESE and will include activity for all terms in the fiscal year: Fall, Winter, Spring, and Summer (inclusive of all summer terms). The submission will include three files:

- Early College Course File
- Early College Student File
- Early College Enrollment File

Please note that the Early College Course and Early College Student files must be successfully submitted before the Early College Enrollment file can be submitted.

Data to be included in these files:

Early College Course File (ECC): Credit-bearing courses in which Early College students are enrolled for the appropriate term.

Early College Student File (ECS): Early College students enrolled in credit-bearing courses for the appropriate term. *Please note that students enrolled exclusively as auditors are not to be included.*

Early College Enrollment File (ECE): Includes enrollments and course outcomes of Early College students in credit-bearing courses for the appropriate term.

A detailed summary of each file and data element are included in the pages below.

Early College Course File (ECC)

The Early College Course File (ECC) is **required for all postsecondary courses in which designated Early College students are enrolled while in high school**. The ECC represents all **credit** courses offered by the institution in the given academic term that actually ran and enrolled Early College students. Non-credit courses should **NOT** be included in this file, except in the case of lab sections noted below.

The information gathered in the ECC file will allow DESE and DHE to analyze the diversity and appropriateness of course offerings and delivery methods for Early College students. DESE and DHE will access and/or trend the enrollment/instructional patterns at the course/academic discipline level and analyze Early College student enrollment as it pertains to cost-effectiveness and alignment to Early College guiding principles.

Note: In the case of lab courses that are associated with a credit course where total course credits (i.e. lecture and lab) are applied institutionally to the lecture/classroom portion of the course, with the associated lab sections appearing in the institutional system as zero credits, colleges are to submit these associated lab sections.

Placement of summer courses in the appropriate fiscal year should be based on start date and correctly reflect when the revenue generated is actually counted.

Instructions

Business Rules	Dependency
Mandatory entry	Must be the correct year as chosen when the file is submitted. Must not be a year previously submitted. Must be the same for the entire submission.

ECC003: Term

The academic term in which the course is offered.

Term represents the designated time period during the fiscal year (e.g., Fall, Winter, Spring, and Summer) for which data are being reported. Applicants identified in the term/year file represent students who are enrolled at the institution for the designated term as of the term freeze date. Students enrolled exclusively as auditors are not included.

“Full Summer” courses typically have a start date of May/June in the fiscal year for which you are reporting but cross over Summer sessions and may end in the next fiscal year (e.g., a 12-week course through July/August). These courses should be counted in the fiscal year ending June 30th.

“Summer I” courses typically have a start date of May in the fiscal year for which you are reporting. (e.g., a 6-week summer course starting in May and ending in June)

“Summer II” courses typically have a start date of July in the fiscal year for which you are reporting. (e.g., a 6-week course beginning in July and ending in August)
