

## **Quinsigamond Community College**

Autumn STEM Spectacle: Students from partner high schools will visit QCC's Main Campus to learn about educational pathways for STEM careers, with focus on manufacturing, electronics engineering and related applied technologies. They will participate in lab demos, learn about QCC STEM pathways and supports for students, and will attend an employer fair where they will experience a variety of cool things made in MA. Employers will share the types of job opportunities available in their companies. Current QCC will be highly encouraged to attend the employer fair, which runs from 11am - 1pm.

October 28: 9 am for HS students, 11 am for employer fair, 1 pm for anyone to join
